Addendum Clarification number 1

10th April 2026.

RE REQUEST FOR PROPOSAL FOR THE DESIGN, SUPPLY ERECTION AND COMMISSIONING OF FED BATCH FERMENTATION PLANT FOR 60KPLD DISTILERY USING MOLASES -ACFC/PPM/01/2025/2027

This Addendum is issued in line with reg. 56 of the Public Procurement and Asset Disposal Regulation, 2020, following a request for clarification from prospective candidates:

No	Clarification requested	Our Response
1.	Kindly confirm whether only the technical proposal is required at this stage.	Only the technical proposal is required as mentioned in the proposal document. Refer to clause 1.5
2.	Also, please confirm whether documents such as company profile, commercial capability details, and other supporting documents mentioned in the tender are to be submitted along with the technical proposal	Yes, these details should accompany each other. Refer to tender document technical evaluation criteria 2.26
3	Financial Proposal Submission It is understood that the financial proposal is not required at this stage and will be submitted later after technical evaluation. Kindly confirm if this is correct.	Yes, financial proposal not required at this stage refer to clause 1.3
4	Battery Limits – Molasses Section As per the tender, the battery limit is defined at the inlet of the raw molasses transfer pump. We request clarification on whether we can consider the scope starting from the inlet of the molasses day tank. This would imply that the client will provide the molasses pipeline	The battery limit is at the outlet of the raw molasses tank, which is also the inlet of the raw molasses transfer pump. The raw molasses holding tank is already in place

 20/4/2026

	up to the day tank, and our scope will start from the day tank onwards for the complete fermentation section. Kindly confirm the battery limits accordingly.	
5	Please confirm whether a molasses bulk storage tank is available at the site	Molasses bulk storage tank is already available at site
6	Cooling Water System Inquiry: tender mentions that cooling water supply and return shall be from the existing system.	Yes, it is from the existing system
7	Kindly provide details of the existing cooling tower to assess whether the available capacity is sufficient.	The existing cooling tower is 425m ³ /hr @20°C
8	Utilities – Steam and Compressed Air We propose to consider the steam supply at the inlet of the fermentation section. Kindly confirm.	Note the Battery limit is before the steam header
9	Compressed air will be considered at one common point in the fermentation section. Kindly confirm	Yes, this can be considered
10.	Inquiry: Scope of Supply – Fermentation Section (60 KLPD) We propose to include the following in our scope of supply: A. Complete design, engineering, drawings, and civil/structural design for the fermentation section.	Yes, only as per instruction in the proposal document
11	Supply and site fabrication of all tanks including molasses day tank, culture vessels, and fermenters.	Day tank and culture vessel already in place. Fermenters can be supplied and fabricated on site
12	Inquiry: Supply of all balance of plant (BOP) items such as pumps, PHEs, piping, fittings, and valves.	Yes
13	Supply of complete electrical and instrumentation systems including MCC panel and internal cabling.	Yes
14	Complete erection, fabrication, installation, piping, and E&I works at site.	Yes
15	Transportation – to be in client scope?	No
16	Civil works – to be in client scope as per our drawings.?	No
17	Inquiry: Mechanical structures – to be supplied and installed by us.	Yes
18	Site Facilities Kindly confirm whether the client will provide accommodation, food, travel (to and from flight tickets), and emergency medical facilities during site execution.	No
19	Tender Security (Bid Security) Kindly clarify the following: When is the tender security amount (approx. KES 1,500,000 or equivalent USD) required to be submitted? Is it required during technical proposal submission or during financial proposal submission? There appears	Together with the technical proposal an amount of Ksh 1,500,000 or equivalent USD as at the date of proposal

Handwritten signature and date: 15/2/2026

	to be a discrepancy: Page 4 specifies a fixed amount (KES 1,500,000), while Page 10 mentions 0.5% to 2% of the tender price. Kindly confirm the applicable amount and submission stage	date of opening and valid for 120 days Refer to the proposal document. Refer to clause 1.6
20	Performance Security Kindly confirm the applicable performance security in terms of percentage or amount, and the stage at which it needs to be submitted.	Not required at this stage. Shall be applicable only to the successful bidder as indicated on the instruction to reference 2.29.1
21	Project Timeline Please provide the expected delivery schedule and overall project completion timeline.	It is a requirement that bidders provide their timelines as this is one of the evaluation criteria hence bidders are expected to provide overall project completion timelines refer to technical evaluation criteria no 7
22	Available Space / Layout Kindly share the available plot space or layout details for the proposed fermentation section so that we can prepare and submit an optimized layout along with our proposal.	The size of the plot is 32meters by 24.8meters
23	Mode of Submission of Technical Proposal Kindly confirm whether the technical proposal is to be submitted via email or as a hard copy.	Yes, as stated in the Proposal tender notice and proposal tender document
24	Also, please confirm whether a physical presentation is required at the time of bid opening.	This is not mandatory, but bidders or their representative may attend as stated in the tender notice and tender proposal document
